## SCITECH WORK EXPERIENCE (INTERNSHIP) GUIDELINES

The length of the internship/work experience is determined by the postsecondary institution and:

- Can be completed prior to enrollment in a NETS qualifying major if approved by the school.
- Must be college/university approved.
- Must be relevant to the student's major.
- Can be credit or noncredit.
- Must be supervised by the college/university and the appropriate academic department.
- Must be served prior to completion of the requirements of the undergraduate degree and must be reported to the Agency by the financial aid office of the postsecondary institution.
- Must be served with a company with operations in Pennsylvania; however, the internship may be served outside of Pennsylvania.
- May be paid or unpaid.
- May be full or part-time.
- May involve co-op or work experience programs including Work-Study.

Please note that although a certain internship/work experience may be approved by the postsecondary institution, the same activity as an employee may not meet the NETS employment guidelines associated with the post-graduate work obligation.

If you have any questions concerning the internship requirements, please contact us at [nets@pheaa.org](mailto:nets@pheaa.org) or by calling 1-800-692-7392.
