Financial Aid Presentations
Each year, we offer FREE presentations to guide students and families through the financial aid process. Participants receive information to help them better understand the requirements necessary to receive state and federal financial aid assistance.

FAFSA® Completion Sessions
FREE programs are offered October through April to help families understand and complete the Free Application for Federal Student Aid (FAFSA®). The FAFSA is the first application that families must complete to be considered for most forms of financial aid.

School Support
PHEAA works closely with secondary and postsecondary education partners by providing information on our products and services through site visits, staff training, workshops, and conferences. Our Higher Education Access Partners are available to support the training needs of higher education administrators, educators and counselors.

Education Conferences
Partnerships exist with many state and national education-based organizations who serve similar target populations in an effort to provide greater access to higher education opportunities.

Community & Government Partners
PHEAA partners with many community and government organizations, as well as local legislative offices across the state, to participate in informational events and training sessions. We also take part in community fairs and events to distribute information about career education, financial literacy, student financial aid programs, saving for college, and preparing for higher education. Higher Education Access Partners are available at these events to provide answers to questions about paying for college.

Please contact your PHEAA Higher Education Access Partner if you're interested in offering these services.
